April 4, 1860. WASHING MACHINE. Clothing, Time, and Labor Saved!

INDISPENSABLE TO HOUSE-KEEPERS.

THE most simple, economical, and durable article ever offered to the public to alleviate the discomforts of wash-DESCRIPTION. It consists of a metal cylinder, with ribs on the inside, and an interior cylinder of wood, with ribs. There is a space of from 6 to 8 inches between the two cylinders. One crank turns both cylinders at the same time in opposite directions, the water does the work quickly, dispenses entirely with rubbing, and thus saves the wear of clothes.
